

2007 Ultra-Lite Travel Trailers

All Models Weigh Less
Than 3000 Pounds!

ECO, the next generation in ultra-lite travel trailers.

Weighing under 3000 lbs., *Eco* can be towed by most midsize SUV's and minivans. Plus, the aerodynamic design and 7' wide body reduces wind drag to increase fuel economy.

Eco may be light in weight, but it's not on features and value. All floorplans feature multiple sleeping locations and a full bathroom. Plus, *Eco* features all the appliances found in larger RV's including a 2-burner cooktop, refrigerator, microwave, AM/FM/CD stereo, furnace, and water heater.

ECO - The smart choice!

Premium Interior Design

Eco features designer décors with luxurious fabrics, hard wood upper cabinet doors and residential vinyl flooring. Plus, storage is not compromised in *Eco*. All models feature wardrobes, overhead cabinets and a spacious exterior compartment.

Comfortable and Spacious Sleeping Spaces

The multiple sleeping locations are designed to be spacious and comfortable. The dinette folds into a bed, and all models include a folding overhead bunk. *Eco's* floorplans sleep up to 5 people. Choose the model that fits your family!

Vehicle Loading - Every effort has been made to provide the greatest number of options for the recreation vehicle owner. Along with these choices comes the responsibility to manage the loads that are imposed by the choices so that they remain within the manufacturer's specified chassis weight limits. Do not overload the recreation vehicle. Net carrying capacity (NCC) determined by subtracting unloaded vehicle weight (UVW) from gross vehicle weight (GVWR) and includes fluids, options and cargo. Liquid capacities and weights are approximations only. Warning: This information is intended as a guide only. Weights of individual vehicles may vary. Consult your owner's manual for complete loading, weighing and towing instructions.

Eco - Easy-to-Tow and Easy on Your Fuel Bill!
