The *SPRINTER* Story

Introduced in 1996 as Keystone's first product line, Sprinter's goals remain simple; take the suggestions from our customers and make them the foundation for the Sprinter design. As a result of these efforts, Sprinter offers customers a proud distinction from other brands, a product designed to:

"Make Camping Easy"

Wouldn't it be nice to deploy your awning with the touch of a button? Sprinter's **One Touch Electric Awning** makes it easy!

How about a **LP Quick Connect** that makes getting gas to your grill easy? Yep! no more hauling charcoal or extra LP tanks just for the grill!

What if you had **Illuminated Light Switches** in those hard to see places in the middle of the night? We make it "easy" to find the light for the bathroom while everyone else is sleeping.

Take a look at the mattress, it's an upgraded pillow top. After all, you are camping to relax and we want to make it "Easy" for you to get that good nights rest.

How do you dry your wet bathing suits and towels? Let us make it "Easy" with our **Retractable Clothes Line** in every tub and shower.

From a **trash can** in every kitchen, to an easy stowed **Picnic Table** tucked away in every unit. Sprinter "Makes Camping Easy"

We at Sprinter understand that finding the time to relax is often hard to do. So for the times you do find to slow down and enjoy North America's beauty, we want you to be able to enjoy every minute of it.

Take a look at Sprinter today and let us show you how we can
