

2009
INSIGNIA

MOTORHOMES BY JAYCO

Discover new places, new adventures and new passions in the new 2009 Insignia. Featuring richly appointed interiors, superior engineering and the finest craftsmanship, the Insignia combines the comfort and liveability Jayco is famous for with the proven performance of a Freightliner chassis—making it the ultimate Class A Motorhome.

Hand-crafted construction combines with high-grade materials to give the Insignia floorplans distinction and durability.

With solid maple cabinetry, an inlaid porcelain tile backsplash and Corian® countertops, the Insignia kitchen is built for beauty and functionality.

The richness found throughout the 2009 Insignia continues into the bedroom with a deluxe pillow top mattress, spacious wardrobe and 26" LCD HD TV.

Unloaded Vehicle Weight (UVW): Sometimes referred to as "Dry Weight." UVW means the typical weight of this motorhome as built at the factory. The UVW, as used in product literature and other promotional materials, does not include cargo, fresh water, propane, options or dealer-installed accessories.

Gross Vehicle Weight Rating (GVWR): GVWR means the maximum permissible weight of the motorhome, including the UVW plus passengers, personal items, all cargo, fluids, options and dealer-installed accessories. The GVWR is equal to or greater than the sum of the UVW and the CCC.

Cargo Carrying Capacity (CCC): CCC means the maximum weight of all passengers, personal items, food, fresh water, propane, tools, other cargo and dealer-installed accessories that can be carried by the motorhome. CCC is equal to or less than GVWR minus UVW. The addition of options will decrease the CCC.

It is important for your safety and enjoyment that you are aware of the weights and tow ratings of the RV you select. Consult a competent advisor for questions or advice. Whether you are new to RVing or a veteran, get a feel for the performance of your RV before heading out on the roadways. When you tow a vehicle with your RV, you must drive differently than when you drive a single vehicle. Practice hooking up, driving, backing up and braking in a safe environment or seek out professional instruction. Jayco affixes a weight label to each RV which lists weight information for that vehicle. Refer to that label to verify the vehicle will meet your requirements.
