Leaning Water Tower, Route 66, Groom, TX

Get your kicks.

INTRUDER 2004

Damon — you can travel the world over and never find more motorhome for the money.
Route 66 bridges cross three famous rivers -- the Mississippi, Rio Grande and Colorado -- and many smaller ones between Chicago and Los Angeles. This Pony-type bridge, completed in 1933, traverses the South Canadian River near Bridgeport, OK.
ROLLING DOWN THE HIGHWAY.

And remember, getting there is half the fun, especially when you’re traveling down America’s greatest highways, like storied Route 66, in first-class transportation like an Intruder™ Motorhome.

Intruder challenges the notion that luxury has to cost a fortune. And it roars down the highway with power and performance to spare. With more comfort and beauty than motorhomes priced thousands of dollars higher. No other motorhome offers you so much for so little.

NEW FOR 2004

Every Intruder on a Workhorse® chassis has larger, 22.5-inch tires for added security and better steering control.

The Carrier® roof-mounted, ducted air conditioners have remote-controlled thermostats for easy adjusting from the interior comfort of your Intruder.

Intruder’s full basement is now two inches taller and includes multiple pass-through storage compartments.
THE SIDEWALLS
Walls are vacuum-bond laminated for added strength and rigidity. Sidewalls are five layers thick, consisting of:
- Exterior fiberglass
- Lauan
- Aluminum frame
- Bead-foam insulation
- Interior wallboard

UTILITIES
Travel in any season because of Intruder’s heated holding tanks and fully contained plumbing systems. Tanks are mounted horizontally, making service and maintenance easy.

FLOOR
A Structurwood® steel-framed floor supports the living area. Framed in 1.5-inch welded-steel tubing, it’s insulated with solid bead-foam insulation and protected with a galvanized underbelly which inhibits rust and corrosion.

BASEMENT AND STORAGE
The Intruder basement construction incorporates a strong, welded-steel truss system. The trusses span the full width to better distribute weight. They also allow for Intruder’s full basement and massive pass-through storage compartments.

FLOOR PLANS
Damon offers a variety of floor plans and options. All provide the roomiest, most convenient mobile living experience you’ve ever had.
HOME ON THE RANGE.

Our optional Sherwin Williams® full-body paint packages will really turn heads.

A premium AM/FM/Pioneer® CD player in the cockpit dash offers quality sound and makes your long drives more enjoyable. Option the Pioneer XM-satellite radio tuner, and you expand your choice of stations, plus get coast-to-coast programming — with no need to switch stations as you travel.

Bring absolutely everything with you, thanks to extra-large, extra-strong multiple pass-through rotocast storage compartments. They even have a drain valve for quick wash out.

Intruder’s optional Surroundsound® home theater system lets you really enjoy all of your favorite movies, no matter where you are. It comes complete with a Pioneer theater receiver, a DVD/CD player, ceiling-mounted satellite speakers and a subwoofer.

A heavy-duty 5,000-lb. trailer hitch lets you tow even the largest SUVs. Intruder’s aerodynamic gelcoated front and rear fiberglass caps give you the sleek, elegant look of a motorhome priced much higher. We even go one step further and offer an optional seamless fiberglass roof, which virtually eliminates maintenance costs.

Flush-floor slideouts operate on a smooth rack-and-pinion mechanism. There’s more headroom, less tripping across the living room.

---

Endee, New Mexico was founded in 1882, and some claimed it was so rough that a trench was dug on Saturday to bury the gunfight losers on Sunday. Endee’s population in 1946 was 110 citizens but, like many towns along Route 66, it quickly became a ghost town after being bypassed by the interstate highway system.

---

CHASSIS

Quality construction starts here. And Intruder uses only the finest: either a rugged Workhorse® or Ford® chassis, depending on the floor plan.

---

PAINT

Option our Sherwin Williams automotive full-body exterior paint packages in a choice of three gorgeous colors. They give Intruder a distinctively upscale look and few motorhomes in Intruder’s class offer them.

[www.DamonRV.com](http://www.DamonRV.com)
For over 70 years, Route 66 was a symbol of our collective motoring experience, more traveled than any other highway. Much of the old road is gone now, but it will live forever in our memories. And it still beckons -- stretches of the highway, along with many restored roadside attractions, are waiting to be rediscovered.
