Discover The Coachmen Advantages

Service After the Sale

Industry Leading BuckstopperTM Warranty –

Coachmen's exclusive BuckstopperTM Limited Warranty provides one-year coverage on most parts, components and appliances. Coachmen stands behind their product and is supported by a network of over 300 service centers.

Two-Year Structural & Major Components Manufacturer's Warranty –

Coachmen provides a two-year structural and major components manufacturer's warranty, along with a complete written Warranty Summary Guide, for your peace of mind.

Comprehensive Owner's Information –

For your convenience we offer published materials on key equipment and options, as well as information pertaining to the function of important components. We also offer a true Trouble Shooting and Maintenance Guide for the simple answers to frequently asked questions.

Toll Free Service Numbers –

Our toll free phone numbers provide you with direct access to a Coachmen RV Service Representative.

Dealer Support Tools –

Coachmen makes sure that their dealers are well equipped and trained to service your needs with: Systems Manuals, PDI Manuals, Electronic Parts Catalogs, Coach-Link[®] "On-Line" Electronic Dealer Communication System, and continual service training.

Service Support Center Web Site –

Coachmen provides you access to key information 24-hours a day through the Internet. On-line you can find a Service Dealer Locator, Maintenance Information, Trouble Shooting Information, Product Warranty Information, Customer "E-Assistance", Frequently Asked Questions (FAQ's) and Publications ordering, dating back to 1972 models.

Priority Parts Ordering –

Coachmen provides a program for overnight parts shipment in critical repair situations.

2006 Coachmen CapriTM Ultra Light Travel Trailers

*Capri*TM

Capri™

Ultra Light Travel Trailers
by Coachmen

Pack up the family vehicle...

The weekend is here and it is time to go out and make some memories. The ultra light weight Coachmen Capri™ is the ideal travel trailer made to accommodate most SUV's and light duty pick up trucks in the market today. Hitch up to the Coachmen Capri™ and get ready for the thrills to begin.

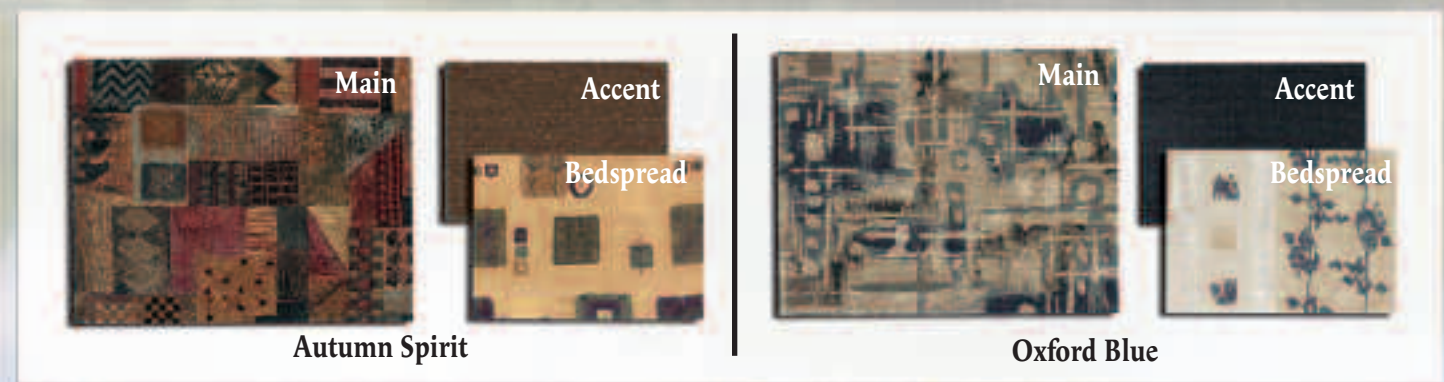

A spacious bedroom suite lets you rest comfortably through the night.

The Coachmen Capri™ is equipped with many valuable features, such as a high spout faucet, laminated self-edged countertops, silverware drawer, designer window treatments and easy to clean thermofoil cabinet doors.

Décor Selections

Dazzling interiors feature skillfully coordinated upholstery and window treatments. Coachmen RV chooses only top-grade fabrics wear-dated as heavy-duty. These fabrics have been tested for durability beyond 15,000 double rubs (in and out action) to simulate heavy usage. An average chair in an American home is subjected to only 3,000 double rubs per year.

Quality By Design

Coachmen RV is committed to providing a high quality, reliable, and innovative product. That's why Coachmen designs quality into our products up-front, through computer aided design and analysis software. This helps to assure appropriate weight distributions, structural integrity, alignment of the various parts and components and overall reliability of the design.

Our attention to quality does not stop on the computer screen as all of our major product designs undergo rigorous road tests, rain booth testing, complete compliance audits for all codes, standards and safety related items, and comprehensive product audits.

Coachmen designs, builds and markets a superior product for reasons that may not always be easy to see, however are very easy to appreciate down the road. Our quality equates to high value, which can be critical to your long term satisfaction.

Coachmen Capri™ Value Added Features

Towing Guide

Coachmen Exclusives:

SAFETY FIRST

All Coachmen Capri™ travel trailers utilize **Duratube™** full length copper LP lines with double flared ends to ensure a tight seal and years of corrosion free use. Coachmen builds in quality for the long haul.

Coachmen's **Sureline™** electrical harness provides color coded wiring and specific wiring schematics for easy serviceability. High quality automotive electrical connectors and autoloom protective covering make for a reliable and durable harness. The wires are grouped together and neatly tucked into the framework under the coach, safe from road debris.

The **Even Cool™** air conditioning system is ducted through the crowned roof and utilizes AMOCO insulated ductwork with radiused corners to provide for maximum cooling efficiency. (210 DB Non-Ducted)

Coachmen Capri™ ultra light travel trailers feature **Alumicage™** construction. This lightweight, corrosion resistant, aircraft grade aluminum material is utilized throughout the roof, walls, and floor for superior strength and ultra light weight.

All Coachmen RV products come standard with an LP leak detector, fire extinguisher and smoke detector for your safety.

SAFETY FIRST

Jalousie bedroom windows' tilt-out design allows them to be opened for ventilation even when the weather outside is less than favorable.

Exterior storage has been utilized to its fullest with pass through storage on all models. Add the optional slide-out storage tray for easy pull out access from either side of the coach.

(N/A 210 DB)

Solid wood core cabinet stiles provide the starting point for long lasting, durable cabinet construction. The stiles are then connected by a pre-drilled pocket screw system to ensure a tight fit that won't pull apart.

The 12v stereo with CD player option is conveniently mounted underneath the overhead cabinets so that it is up and out of the way without taking up valuable cabinet storage.

The Coachmen Capri™ features an aerodynamic profile for improved air flow around the unit.

The popular Coachmen Capri™ series of travel trailers has been designed with the new generation of tow vehicles in mind. In deciding which travel trailer is right for you, you will want to compare its weight shown in the specification chart to the towing limits of your tow vehicle. Because of the many variables, the process can be confusing. This guide is provided for your convenience as a general reference. It lists the 2005 model, engine size and published maximum towing capacity. **Please note: This guide does not attempt to provide all necessary information such as axle ratios, cooling systems, transmissions and any additional equipment required by the tow vehicle manufacturer to achieve the published maximum towing limits.** Please be sure to verify your particular tow vehicle manufacturer's specifications. Your Coachmen dealer will be glad to help you with questions.
