

QUALITY, VALUE, MEMORIES
Yours, with a Coleman® Camping Trailer

CAMPING TRAILERS

MORE THAN 40 YEARS OF MANUFACTURING THE HIGHEST QUALITY CAMPING TRAILERS

CAMPING TRAILERS

WHAT'S IN A NAME?

If that name is Coleman®, the answer is over a century of trust, built by providing innovative, high-quality products that make it easy for you to enjoy the great outdoors!

Since 1966, we have proudly built Coleman Camping Trailers at the same location in Somerset, PA, personally selected by Sheldon Coleman more than 40 years ago. We encourage you to work with your dealer to select the best model for your needs. Be sure to have the dealer “pop-up” the trailer so you can see for yourself how easy it is and how much it enhances your camping experience.

EXPERIENCE *Quality*

Coleman® Camping Trailers are simply the best in the market, and we take great pride in our innovative design and quality construction.

Unlike other folding camping trailers, with Coleman® Camping Trailers you get:

- The easiest folding trailer to set up or take down.
- A Posi-Lock™ lift system with posts bolted directly to the trailer's frame instead of screwed to the floor as in many competing models. This creates superior structure AND keeps rain out of the trailer.
- 100% stainless steel lift posts that won't corrode or bind.
- Stainless steel cables that are independent for each lift post and utilize aircraft grade materials for unsurpassed strength.
- Metal and steel as key materials that replace wood used in competing products. This automotive quality construction creates strength, comfort and reliability.
- Galvanized and painted side body panels that are riveted to the trailer's framework for flexibility, durability and easy replacement if necessary.
- Electric brakes for reliability and safety.
- Sectionalized, breathable Sunbrella 302® tenting that is specially developed for Coleman® Camping Trailers (compare to cotton canvas that is not water repellent or vinyl that does not breathe). Sunbrella® is the world's #1 marine fabric so it won't mildew or rot, and you get legendary durability and fade resistance.
- Screens on the Coleman® Camping Trailer have the finest mesh netting available. Even "no see-ums" won't get in your trailer.
- Home quality mattresses that are so comfortable and quiet you could sleep on them all year round.

EXPERIENCE

the Coleman® Camping Trailer Advantage

Coleman® Camping Trailers are the gold standard in the industry. No other brand compares in terms of quality, structure and comfort. We make the following features standard on all models (unless noted):

1 LIFT SYSTEM

- Stainless steel lift posts will not corrode, or bind, and do not need to be protected from rain by tent flaps.
- Posts are bolted directly to the trailer's frame, not screwed to the floor, and are designed to channel rain harmlessly to the ground and not into the trailer.
- Our lift system is user-friendly with no need for an over-crank warning cable – ours cannot be over cranked, and our system does not require you to install additional support posts.
- We manufacture our own high-quality stainless steel posts and use independent, aircraft-grade stainless steel cables for each lift post.
- The Posi-Lock™ crank system allows the operator to stop and release the crank handle without fear of kick-back or free-fall.

2 FRAME AND SUSPENSION

- Full perimeter tubular steel frame offers strength and durability.
- Heavy-duty tubular steel chassis also provides strength and durability.
- Steel bulkheads provide superior frame rigidity.
- To ensure a long lasting finish, our frames are E-coated using a 12-step process to protect against rust and corrosion. This process meets the strict standard of military specifications TTC-940E Type 1.
- Trailer wiring is protected inside the frame members to prevent damage from stones and other road debris.

3 ROOF

- Americana LE, Destiny and Evolution Series roofs feature durable aluminum exterior skins, folded along four sides to provide greater side wall strength without additional seams.
- Highlander and Americana offer a one-piece seamless aluminum skin.

4 EXTERIOR BODY

- All models feature galvanized and painted side body panels that are riveted to the trailer framework for flexibility and durability, and permit easy and inexpensive replacement if ever damaged.
- Exclusive Krystal Kote™ finish on side body panels resists scratching. Americana and Americana LE Series front and rear body panels are thermoformed of impact resistant TPO (Thermoplastic Polyolefin).
- Diamond plate accents are on the Destiny, Highlander and Evolution Series.

5 AXLES

- Electric brakes are standard on all models regardless of size or weight. Your safety is our number one priority.
- We use only five-bolt wheels, compared to four-bolt wheels on some competitors' models.
- We use only EZ lube axles that permit easy maintenance.

6 SCREEN DOOR

- The easiest to install one-piece screen door requires no assembly.
- The screen door is self contained in a single frame so the trailer does not need to be perfectly level for installation.
- The screen door is a full 24.5" wide; the widest in the industry.
- The door handle is located at waist level for easy use without stooping or bending to reach.
- The automatic spring-loaded door return provides automatic closing.
- The outside access door does not need to be removed and stored.

7 FLOOR AND BED PLATFORM

- One piece Weyerhaeuser Structurwood® eliminates seams, warping, buckling and delaminating.
- Our bed platforms provide consistent panels with no soft spots, knotholes or core voids.

8 BEDS

- Americana, Americana LE, Highlander and Evolution (except Cobalt) offer an exclusive BackSaver bed support system for easy setup without bending or stooping.
- All beds feature self storing support legs that set up easily and cannot be misplaced or lost.
- The beds glide out with minimal effort and feature full perimeter aluminum frames to prevent warping and binding; and we rate them to 1,100 lbs. (750 lbs. on Cobalt) capacity.
- Our mattresses feature a comfort-engineered polyester fiber that is hypoallergenic and comfortably soft and supportive.

9 TWO BURNER, OUTSIDE STOVE

- The Highlander, Americana and Evolution Series (except Cobalt) all have an outside, high-pressure two burner stove.
- The Destiny models and the Evolution Series Cobalt offer an outside grill as an optional accessory.
- The Americana LE models come standard with a portable indoor/outdoor stove.

10 FRONT STORAGE TRUNK

- Our storage trunk has a patented design.
- Impact and water resistant rotational molding is used for the front storage trunk.
- There is easy access from top and side.
- The inside can be washed and drained with a removable floor plug.
- There are no gimmicky sliding mechanisms or two-piece lids to add weight and complexity.

NORTH AMERICA'S #1 CHOICE IN CAMPING TRAILERS

11 GALLEY AND FURNITURE DESIGN

- The patented Swing Level galley in the Americana, Americana LE and Evolution Series (except Cobalt) provide quick and easy setup and provide plenty of upper and lower storage.
- Items do not need to be removed when traveling and the Swing Level galley design provides a no-spill feature so items remain in place when positioning the galley.
- Highlander Series features a fixed residential style galley for spacious storage and no setup.
- All Highlander, Americana and Evolution Series (except Cobalt) feature our exclusive seamless edged countertops, table and hutch tops that provide superior moisture resistance and long-term good looks.
- Most models offer a portable dinette table that can be used inside or out.
- Highlander, Americana, Americana LE and Evolution Series (except Cobalt) feature metal dinette frames that provide stronger support and lasting durability.

12 WINDOWS AND SUNBRELLA 302® TENTING

- Sunbrella 302® is unaffected by sunlight, chemicals, mildew and rot, making it long lasting and far superior to cotton or canvas for outdoor use.
- Sunbrella 302® is breathable and won't trap heat and moisture like vinyl or coated materials. It keeps you comfortable and stays fresh, without collecting musty odors.
- Sunbrella 302's® color is locked into the fibers and won't run, wear or wash out. Stain resistant and easily cleaned, Sunbrella will look great for years.
- With unsurpassed UV resistance, Sunbrella's color and strength defy years of brilliant sunlight exposure. Plus, it's unaffected by dust, pollen, atmospheric chemicals and gifts from our feathered friends.
- Sunbrella 302® is water repellent and quick drying, keeping moisture out and making spring showers a thing to enjoy.
- Sunbrella 302® is extremely strong and abrasion resistant, yet it's also lightweight and easy to handle.
- Sunbrella 302® won't shrink or stretch under normal use, so it will always fit perfectly.
- Sunbrella 302® won't harden, crack or peel regardless of exposure to the weather.

- GVWR (Gross Vehicle Weight Rating) is the maximum permissible weight of this trailer when fully loaded. It includes all weight at the trailer axle(s) and tongue or pin.
 - All unloaded weights are based on the heaviest factory configuration of every model and do not include accessories.
 - Maximum Carrying Capacity is determined by subtracting Gross Dry Weight from the GVWR. The Maximum Carrying Capacity does NOT include the weight of fresh water, propane or water in the water heater.
 - Trailer open width includes slide-out step and/or slide-out.
 - Water weight equals 8.3 lbs. per gallon. Propane gas weight equals 4.2 lbs. per gallon.
 - Hitch weights are dependent upon how the trailer is equipped with accessories, on board cargo and tank fluid levels. Actual hitch weights may be higher or lower than shown. It is recommended that the tow vehicle and hitch for your trailer have sufficient capacity to accommodate actual usage.
 - Some accessories may be dealer installed.
 - Installed accessory weights will decrease the cargo carrying capacity. Consult Owner's Manual for accessory weights.
 - Storage trunk models equipped with hot water have reduced cargo capacity because of hot water heater location.
 - Refrigerator, furnace, Cassette Potti, water heater, outside shower and power lift are factory installed accessories.
- (1) Does not include temporary storage space in open areas of each floor plan.
 (2) Avalon rides on tandem axles and four tires.

Personalized Outdoor Living

You can **CUSTOMIZE** your camping trailer in many ways both inside and out.

Wide selections of accessories are available for your Coleman® Camping Trailer.

Not all accessories shown are available on all models.

Add a screen room to your canopy for even more living space.

Self-storing canopy for extra shade and roominess.

Please see your dealer or go to WWW.COLEMANTRAILERS.COM for a complete list of accessories.

NORTH AMERICA'S
#1 CHOICE
IN CAMPING TRAILERS

Add increased stabilization with a convenient sand foot.

Place this easy-to-install shelf above your bed for added convenience.

Include a wardrobe hanger to create "closet" space.

Add even more room to your kitchen with this convenient sink cover.

Come in from the great outdoors and enjoy inside temperature control.

Choose from a variety of cross bars and mounting kits.

A camper caddy gives you even more organization and storage space.

EXPERIENCE

Affordable Family Fun

“The typical RV family vacations are on average 27% to 61% less expensive than other types of vacations studied,” according to PKF Consulting, an internationally recognized consulting firm with expertise in travel and tourism.

“Regardless of gas prices, RV owners still get a bigger bang for their buck when compared to other types of vacations,” said Richard Coon, President, Recreation Vehicle Industry Association (RVIA).

One example from the study showed that a family of four traveling from Washington, DC, to Dennis Port, MA, for 10 days with their folding camping trailer in tow, staying in campgrounds for the local average of \$25 per night, would save 54% or \$1,696, over the same trip taken by car, staying in hotels averaging \$120 per night and eating in restaurants.

The PKF study considered only quantifiable economic factors, not the comparative quality of each vacation. As a result, the convenience, flexibility and quality family time cited as major benefits of traveling in a camping trailer could not be addressed.

RV VACATIONS SAVE MONEY

How going by RV reduces family vacation costs vs. other vacation types, according to a comprehensive study by PKF Consulting comparing travel expenses to popular U.S. destinations:

VACATION TYPE	TRIP DURATION (FAMILY OF FOUR)			
	3 DAYS	7 DAYS	10 DAYS	14 DAYS
Transport Mode/Accommodation				
Car Towing a Folding Camping Trailer/ Campgrounds	\$508	\$1,125	\$1,605	\$2,317
Personal Car/Hotels or Motels	\$903	\$2,182	\$3,125	\$4,222
Personal Car or Airplane/ Rental Property	\$1,514	\$2,725	\$3,570	\$4,281
Airplane or Rental Car/Hotels or Motels	\$1,678	\$3,044	\$4,406	\$5,742
All-Inclusive Package Vacation	NA	\$5,156	\$7,125	\$9,285

COMPARE THIS TO YOUR COLEMAN® CAMPING TRAILER.

Your purchase will pay for itself in just a few vacations. In addition, you have an investment in your family's second home. When you are ready, you'll discover that a Coleman® Camping Trailer retains extraordinary value during trade-in or resale.

Source: Press release located on www.rvia.org. RVIA is the national association representing more than 550 manufacturers and component suppliers producing approximately 98% of all RVs made in the United States.
