

People all across America are proud to call their Heritage home.

Inherit the excitement and pride of ownership that comes when you call an American Heritage® home. It is a feeling unlike any you've ever experienced. American Heritage® is as close to a customized motor coach as you can get without a custom sized price. Choose from a wealth of floorplans and luxury options and begin to create your very own rich American Heritage. For freedom, independence and a growing sense of pride, you can't do better than American Heritage.

You've got a friend down every twist and turn.

It would be almost impossible for you to lose your way in an American Heritage. From simple safety conveniences like an adjustable pneumatic dash to a high tech global positioning system and monitoring devices for your engine and vehicle subsystems, American Heritage® will get you where you want to go. In style.

Simply nestle into your optional "air-ride" driver's seat that automatically adjusts to your personal body weight. Select a steering wheel setting that's just right for you. Then set your GPS to zero in on your exact location.

American Heritage sports a driver friendly wraparound cockpit that puts all your controls in logical, easy-to-reach order. Our VDO Pneumatic dash also tilts and telescopes to allow for a clean and unobstructed view of all your gauges and controls.

Bet American Heritage entertain you.

Whether you're dining with family and friends or simply spending a quiet evening at home, American Heritage always brings a touch of elegance to the occasion. Adding to the ambiance are romantic mood lighting and the sweet sound of background music emanating from a sub woofer and five incomparable BOSE surround sound speakers.

In a Heritage, the accent is on both SONY® sight and sound with theater-style viewing of your favorite video, DVD or satellite fed TV program on a large 27" SONY® TV or the drop down 42" SONY® Plasma TV.

Heritage is literally a 45 foot entertainment center on wheels. Everything you could possibly need to entertain is on board and neatly tucked away to maximize your living space.

Imagine the tantalizing smell of leather and suede.

There's also something to be said about the smell of good home cooking.

In order to truly capture all the luxury Heritage has to offer, one really needs to step on board and take in the whole experience...the look...the smell...and the feel.

Plush residential carpeting. Rich Villa leather furniture. Elegant fabric choices. Unique suede window treatments. Mood enhancing halogen lighting. And smooth, easy to clean Corian® countertops and cabinets that won't scratch or stain like other surfaces.

And from the pages of a gourmet cooking magazine, comes a fully equipped galley featuring a large four door refrigerator, Sharp® microwave oven, Corian® sink, a pull out Moen® faucet, all laminate finished cabinets and diagonally-laid porcelain tile floor. All are tastefully crafted to create an awe inspiring first impression that whispers luxury.

A luxurious way to spend a third of your day.

Eight hours of sleep may not give this bedroom suite the time it really deserves. The bed slide provides ample room for one to maneuver about and plenty of space to store clothing and personal belongings. Included are a cedar lined wardrobe, an exclusive shirt wardrobe, several large drawers and compartments, and matching Corian® night stands.

A swivel-out 20" Sony® TV is mounted to conveniently adjust to your line of vision.

The bath area provides a full lavatory, with sink and medicine cabinet inside the bathroom and an additional sink and cabinet near the bedroom for primping and storage. A glass enclosed shower features a sliding door, overhead skylight and built in shower caddy.

Strategically placed beveled mirrors create an open and airy feeling throughout the bedroom and bath area. For privacy considerations, American Heritage has a bifold pocket door to separate the bedroom suite from the rest of the coach. Here, as well as throughout the coach, powered shades can adjust the lighting at the touch of a button.

Upscale innovations for lower level accessibility.

Behind every American Heritage exterior door lies a specifically designed compartment for your special outdoor activities. Included is a standard outdoor entertainment center, complete with a swivel-out 27" color TV and Sony® stereo. For the master chef, there's an optional pull-out electric grill and convenient freezer. And, for your picnic-ready chairs and tables, two large 90" storage slide trays are standard.

Boarding an American Heritage is now easy thanks to a newly designed double entry step with a Corian® stepwell. "Accessibility" is also the operative word for the brightly lit service center for water hook-ups and the wash down station for quick clean-ups. With the push of a button one can also service the generator thanks to a power slide-out. Hot water? No problem. With a Hydronic® heating unit you'll have continual hot water without interruption.

Take any American Heritage for a spin and you'll quickly notice its luxurious ride and superb handling. Thanks to Spartan/Granning Independent Front Suspension, Heritage rides smoothly through turns and over rough roadways.

Other Spartan custom platform features include:

Strong Foundation: Double cross-member reinforcement is fastened with the industry's highest quality nuts & bolts.

Spartan's Eurotech electrical system: One of the best in the industry.

ABS Brake testing: Ensures braking performance before your platform ever leaves the factory. Roadside Companion: Spartan's 24 hour service hotline gives you the support you need wherever you go.

American Heritage is powered by a powerful high-torque, 500 horsepower ISM engine. Couple that with a rugged, electric, 4000 MH Allison transmission and you'll feel the urge to put on your driving gloves and hit the racing circuit.

You'll also be comforted to know your Spartan platform was designed and built by a number of dedicated Spartan engineers who ensure tomorrow's technology is already engineered into each platform today. Rest assured, American Heritage wouldn't settle for anything less.

M American Heritage

We believe the trip is always a little more meaningful when you travel our country in an American Coach. Because you're riding in a motorhome that was built by pride-filled Americans... for Americans. Americans who cherish the freedoms that have made this country the greatest country in the world. And, like you, we're prepared to keep those freedoms intact.

Our optional VIP Delivery Service takes place right here in the heartland at our factory in Decatur, Indiana. We'll do everything in our power to make you feel like part of our family the minute you take possession of your American Coach. It's an ideal opportunity to learn everything about your new vehicle firsthand from the

very people who proudly designed and built it.

Not only will you drive away with 1 year/3 year RV Ownercare service and warranty card, you'll drive away with peace of mind, knowing you can rely on us wherever you are in the country, for roadside assistance, service and answers to any question you may have.

As an American Coach owner, you're automatically eligible to become a member of three active and fun-loving owner groups. The American Coach Association, American Coach chapter of FMCA and Club Fleetwood... great people who love to travel and party at beautiful resorts and vacation spots all across America.

Welcome to the team. Welcome to American Coach.

Dimensions and Capacities

Weights (pounds)

| | 45-SS |
|-----------------------------|--------|
| GVWR Rating (Lbs.) (1) | 43,700 |
| Front GAWR (Lbs.) (2) | 13,700 |
| Rear GAWR (Lbs.) (2) | 30,000 |
| Base Weight (Lbs.) (3) | 37,550 |
| GCWR (Lbs.) (4) | 53,700 |

Note #1: GWR (Gross Vehicle Weight Rating): Means the maximum permissible loading weight of the motor home. GWR is equal to or greater than the sum of the unloaded vehicle weight plus the net carrying capacity.

Note #2: GAWR (Gross Axle Weight Rating): Means the maximum permissible loaded weight a specific axle is designed to carry.

Note #3: BW (Base Weight): Means the weight of a motor home without fuel, options, water, cargo or passengers.

Note #4: GCWR (Gross Combined Weight Rating): Means the value specified by the motor home manufacturer as the maximum allowable loaded weight of this motor home with its towed vehicle. Towing and braking capacities may differ. Refer to Fleetwood and chassis manufacturer manuals for complete information.

Note #5: Length taken from front bumper to rear bumper (excludes accessories).

Note #6: Excludes safety equipment and awnings.

Note #7: Tank Manufacturer's listed water capacity (WC). Actual LPG capacity is 80% of water listed as required by the safety code.

Liquid Weight Reference: Water (gal./ltrs.)=(8.3 lbs./3.8 kgs.), Fuel (gal./ltrs.)=(7.1 lbs/3.2 kgs.), LPG (gal./ltrs.)=(4.2 lbs./1.9 kgs.)

Metric Conversion: Multiply pounds x 0.453 to obtain kilograms, Multiply gallons x 3.785 to obtain liters

*The chassis manufacturer recommends the installation of a supplemental brake control system to activate the brakes on the vehicle or trailer you are towing.

IMPORTANT-PLEASE READ: Product information, photography and illustrations included in this publication were as accurate as possible at the time of printing. For further product information and changes, please visit our website at www.fleetwoodrv.com or contact your local Fleetwood dealer. Prices, materials, design and specifications are subject to change without notice. All weights, fuel, liquid capacities and dimensions are approximate. Fleetwood has designed its recreational vehicles to provide a variety of uses for its customers. Each vehicle features optimal seating, sleeping, storage and fluid capacities. The user is responsible for selecting the proper combination of loads (i.e. occupants, equipment, fluids, cargo, etc.) to ensure that the vehicle's capacities are not exceeded.
