Wherever the road takes you... in comfort and style

The legacy continues...

America's first road trip initiated by Lewis and Clark perfectly captured the American spirit of independence, exploration and adventure. Today those same qualities exist in a new brand of pioneer. The one who marvels at the beauty that surrounds them *and* wonders what lies beyond.

Large overhead cabinets featuring adjustable shelves and ambient lighting are just some of the creature comforts that abound. Expand your space while expanding your horizons—with Expedition's multiple slide-outs you can practically double your space in moments.

Roughin' it without the rough. Expedition's Freightliner® Cummins 300 hp diesel engine on our patented Power Platform® foundation means smooth sailing ahead. Form meets function in Expedition's full fiberglass front cap, redesigned rear cap and exterior storage compartment. New bus styling is made even more distinct with optional full body paint and a bold new graphics palette that coordinates with your interior colors.
