## TIOGA

**Thick Tuff-Coat® Exterior Fiberglass Sidewalls** are Vacu-bonded® into a strong composite structure, as opposed to competitors' cheaper thin fiberglass laminate.

**Drip Rail Moldings** channel excess water through spouts to the rear and front of the unit. This helps to prevent sidewall streaking.

**Our Tuffply Roof** is UV resistant, durable, easy to clean, and doesn't scratch like many competitors' fiberglass or aluminum roofs.

**Powder Coated Steel Running Boards** are sleek, stylish and add to Tioga's curb appeal.

**Exterior Awning** is standard on the SL and provides great protection from the weather, so you can enjoy your surroundings rain or shine.

**One-Piece Fiberglass Front Cap** is stylish and aerodynamic.

**Alcoa® Aluminum Wheels** are standard, which give the vehicle a stylish look.

**Basement Storage** features aluminum doors with struts and paddle latches for easy access to all your travel gear.

**Heated Holding Tanks** help to prevent winter freezing and are positioned in the bottom center platform to increase stability.
