

Prowler Classic & Prowler

**Camp like you did when you were a kid.
But without the dirt in your sleeping bag.**

Travel Trailers and Fifth Wheels

Smooth Fiberglass Walls (Prowler) | Functional Floor Plans | Appealing Décors | Superior Construction | Name Brand Components

The Pantry holds snacks, cereal and more on adjustable shelves. That means you can pack enough food to feed your family, and the friends the kids bring over.

The Galley is equipped with trusted brand name appliances you can depend on. Like the big Dometic® double-door refrigerator, the Magic Chef® 3-burner stove with oven and the Atwood water heater.

The Entertainment Center with available LCD TV and DVD Player lets you put on a movie when the kids need downtime. (Or you need a break from entertaining them.)

Roughing it is overrated. A clean, comfy, convenient home base makes the great outdoors seem even greater.

Prowler 290FKS shown in Caramel interior décor with Clear Oak wood finish.

The Living Room brings camping comfort to a new level, with appealing décor and rich fabrics that are surprisingly durable and easy to clean. And rather than build our own furniture, we furnished Prowler with superior Flexsteel® furniture with a lifetime warranty on the frame.

Under-Dinette Storage keeps the ever-multiplying pile of toys, coloring books, games and treasures ready for playtime.

The Wardrobe keeps your clothes neat with a slotted rack that holds full-size hangers. Because camping is not an excuse to look like Sasquatch.

Overhead Storage holds extra clothing, towels, or campground guidebooks behind its attractive decorative glass doors.

The Neo-angled Shower looks elegant and fits into the corner to give you more bathroom space. (Most models.) And the water saver feature helps you conserve water so everybody gets a shower.

Prowler is one of the top-selling towable trailer brands of all time, so we know a little something about designing floor plans. A smart one can mean the difference between crowding and comfort. We offer a very wide range of well-designed floor plan configurations to suit up to ten people.

The Master Bedroom feels just as comfy as yours at home. After a long day on the river, you can float away on the cushy queen-size bed with innerspring mattress. The other campers can retire to the available single or double bunkhouse (Select models).

The Bathroom contains a large sink to give you plenty of room for brushing your teeth, and a mirrored medicine cabinet so you can check your pearly whites.

The Entry Assist Handle helps big and little campers get in and out easier. And it folds flat when you're on the road.

Pass-Through Storage (most models) is perfect for oversized items like your fishing poles, lawn chairs and cooler. And it's illuminated, you don't have to rely on the stars to get your gear at night.

Under-Dinette Storage is accessible from the outside or the inside of your Prowler. So it's perfect for storing sunscreen and sandy beach towels.

As spacious as the great outdoors. Well, it just feels like it. You've got stuff? We've got space. From the inside storage compartments to the pass-through storage, Prowler has the room.

**PROWLER CLASSIC.
IT'S PURE PROWLER AT A LOWER PRICE.**

When you want to enjoy the outdoor scenery without parting with too much green, Prowler Classic is a great choice. You'll enjoy a nice array of features, and it's built with the same high quality that Fleetwood is famous for. We wouldn't put the Prowler name to anything less.

Drawing is for illustrative purposes only to highlight aspects of Prowler Classic construction. Actual RV design depends on model and is subject to change.

1. **ENGINEERED RADIUS CEILING TRUSS** – Helps to ensure strength, water runoff and reduced weight.
2. **IN-CEILING AIR CONDITIONING DUCT** – Better distributes cool air.
3. **R7 FIBERGLASS INSULATION** – As in your home, helps to ensure interior comfort in every season.
4. **ONE-PIECE SEAMLESS SYNTHETIC ROOF MEMBRANE** – Provides the ideal weather seal and is warranted for 12 years.
5. **INTERIOR WALL PANEL** – Features a durable, easy-to-clean, decorative vinyl.
6. **ARMSTRONG® FLOORING** – Durable, easy to clean, from the best name in residential flooring.
7. **REINFORCED CAMBERED STEEL CHASSIS** – Provides optimal strength, durability, and towing performance.
8. **ENCLOSED CHASSIS** – Is a durable weather barrier (available).
9. **OSB ENGINEERED ROOF SUBSTRATE** – Is designed to maximize strength, is sealed to provide moisture resistance and provides a solid backbone for the synthetic rubber roof construction.
10. **2" x 3" FLOOR JOIST** – Allows for the placement of in-floor furnace ducting without compromising structural integrity.
11. **ENGINEERED 5/8" OSB FLOORING** – Provides the dependable decking needed to ensure an adequate foundation. Further stability is added by interlocking these sheets using "tongue and groove" construction.
12. **2" x 2" SIDEWALL STUDS 16" ON CENTER** – Utilizing residential framing methods, this is the structural component of our sidewall construction.
13. **.024" ALUMINUM SIDING** – Complete with a baked-on enamel paint, this aluminum siding offers rigidity while still being affordable.

The Front Cap (available) is aerodynamic and easy to clean. Best yet, it makes Prowler look like a million bucks.

Cube Speakers in the living room give your camping trip a soundtrack. They're connected to the standard AM/FM/CD stereo and available DVD and MP3 player.

The Enclosed Chassis is standard on Prowler and available on Classic. No need to migrate to warmer climates. The enclosed chassis allows heating the holding tanks to help prevent freezing in colder weather.

FIBERGLASS CONSTRUCTION SETS PROWLER APART.

Competitors just can't match the quality of Prowler's construction. Prowler is built with strong, laminated fiberglass exterior sidewalls. Not usually found at this price, they provide insulation and rigidity. The quality continues inside, where we use solid hardwood cabinet doors, and seamless vinyl flooring covering the entire floor (not just the parts you can see). This attention to detail creates superior construction, a polished look and an unbeatable value for the money.

Drawing is for illustrative purposes only to highlight aspects of Prowler construction. Actual RV design depends on model and is subject to change.

1. **ENGINEERED RADIUSED CEILING TRUSS** – Helps to ensure strength, water runoff and reduced weight.
2. **IN-CEILING AIR CONDITIONING DUCT** – Better distributes cool air.
3. **R7 FIBERGLASS INSULATION** – As in your home, helps to ensure interior comfort in every season.
4. **ONE-PIECE SEAMLESS SYNTHETIC ROOF MEMBRANE** – Provides the ideal weather seal and is warranted for 12 years.
5. **INTERIOR WALL PANEL** – Features a durable, easy-to-clean, decorative vinyl.
6. **ARMSTRONG® FLOORING** – Durable, easy to clean, from the best name in residential flooring.
7. **REINFORCED CAMBERED STEEL CHASSIS** – Provides optimal strength, durability, and towing performance.
8. **1 1/2" ALUMINUM TUBING** – Lightweight, structural studs blend proven framing methods with technologically superior materials.
9. **HIGH-DENSITY BLOCK FOAM INSULATION** – Is custom cut to ensure maximum structure and insulation value.
10. **SMOOTH GLOSS FIBERGLASS EXTERIOR SIDING** – This glossy surface is easy-to-clean and adds beauty and structural integrity.
11. **WOOD SUBSTRATE** – Adds structural reinforcement to the exterior fiberglass panel.
12. **ENCLOSED CHASSIS** – Is a durable weather barrier.
13. **OSB ENGINEERED ROOF SUBSTRATE** – Is designed to maximize strength, is sealed to provide moisture resistance and provides a solid backbone for the synthetic rubber roof construction.
14. **2" x 3" FLOOR JOIST** – Allows for the placement of in-floor furnace ducting without compromising structural integrity.
15. **ENGINEERED 5/8" OSB FLOORING** – Provides the dependable decking needed to ensure an adequate foundation. Further stability is added by interlocking these sheets using "tongue and groove" construction.
16. **2" x 2" STUDS 16" ON CENTER (FRONT AND REAR SECTION)** – Utilizing residential framing methods, this is the structural component of our front and rear construction.
17. **AVAILABLE MOLDED FRONT CAP** – Improved aerodynamics and styling.

Prowler gives Mother Nature some competition in the beauty department.
 With beautiful fabrics and warm woods like these, you could call Prowler “the great indoors.”
 Created by professional interior designers, the attractive décors remind you of home.

- GVWR (Gross Vehicle Weight Rating) is the maximum permissible weight of this trailer when fully loaded. It includes all weight at the trailer axle(s) and tongue or pin.
- All dry weights are based on the standard model and do not include optional features or equipment.
- Cargo Carrying Capacity (CCC) is determined by subtracting Gross Dry Weight from GVWR. Cargo Carrying Capacity (CCC) includes all fluids, optional features, equipment, and personal cargo.
- Length taken from hitch or pin box to rear bumper (excludes accessories). Trailer length includes hitch; fifth wheel includes standard pin box.
- Actual height may be lower, based on option offerings. Consult with your dealer to obtain actual height for the unit you are interested in.
- Approximate.
- Water weight equals 8.3 lbs per gallon. Propane weight equals 4.2 lbs per gallon.
- Add 10" if equipped with optional spare tire and carrier.
- Hitch weights are dependent upon how the trailer is equipped with options, on-board cargo and tank fluid levels. Actual hitch weights may be higher or lower than shown. It is recommended that the tow vehicle and hitch for your trailer have sufficient capacity to accommodate actual usage.

N/A = Not available at the time of printing.

* = Estimated weights

IMPORTANT—PLEASE READ
Product information, photography and illustrations included in this publication were as accurate as possible at the time of printing. For further product information and changes, please visit our website at www.fleetwoodrv.com or contact your local Fleetwood dealer. Prices, materials, design and specifications are subject to change without notice. All weights, fuel, liquid capacities and dimensions are approximate. Fleetwood has designed its recreational vehicles to provide a variety of uses for customers. Each vehicle features optimal seating, sleeping, storage and fluid capacities. The user is responsible for selecting the proper combination of loads (i.e., equipment, fluids, cargo, etc.) to ensure that the vehicle's capacities are not exceeded.

Propane Capacity (lbs) ^{5,7}	60	60	60	60	60	60	60	60
Tire Size (Load Range)	ST225/ 75R 15D	ST225/ 75R 15D	ST225/ 75R 15D	ST225/ 75R 15D	ST225/ 75R 15D	ST225/ 75R 15D	ST225/ 75R 15D	ST225/ 75R 15D

1. GVWR (Gross Vehicle Weight Rating) is the maximum permissible weight of this trailer when fully loaded. It includes all weight at the trailer axle(s) and tongue or pin.
2. All dry weights are based on the standard model and do not include optional features or equipment.
3. Cargo Carrying Capacity (CCC) is determined by subtracting Gross Dry Weight from GVWR. Cargo Carrying Capacity (CCC) includes all fluids, optional features, equipment, and personal cargo.
4. Length taken from hitch or pin box to rear bumper (excludes accessories). Trailer length includes hitch; fifth wheel includes standard pin box.
5. Actual height may be lower, based on option offerings. Consult with your dealer to obtain actual height for the unit you are interested in.
6. Approximate.
7. Water weight equals 8.3 lbs per gallon. Propane weight equals 4.2 lbs per gallon.
8. Add 10" if equipped with optional spare tire and carrier.
9. Hitch weights are dependent upon how the trailer is equipped with options, on-board cargo and tank fluid levels. Actual hitch weights may be higher or lower than shown. It is recommended that the tow vehicle and hitch for your trailer have sufficient capacity to accommodate actual usage.

N/A = Not available at the time of printing.

* = Estimated weights

IMPORTANT—PLEASE READ
Product information, photography and illustrations included in this publication were as accurate as possible at the time of printing. For further product information and changes, please visit our website at www.fleetwoodrv.com or contact your local Fleetwood dealer. Prices, materials, design and specifications are subject to change without notice. All weights, fuel, liquid capacities and dimensions are approximate. Fleetwood has designed its recreational vehicles to provide a variety of uses for customers. Each vehicle features optimal seating, sleeping, storage and fluid capacities. The user is responsible for selecting the proper combination of loads (i.e., equipment, fluids, cargo, etc.) to ensure that the vehicle's capacities are not exceeded.

WHY PROWLER?

PASSION

We're truly passionate about the RV lifestyle. Fleetwood was founded by RV enthusiasts, and that tradition continues today.

QUALITY

There's no cutting corners. Skilled craftsmen build every Fleetwood RV for maximum durability and longevity.

SERVICE

Help is nearby. When you need an upgrade or repair, you'll find facilities all across North America and more than 1,100 dealers ready to assist you.

WARRANTY

Exclusive RV Ownercare warranty. See your Fleetwood dealer for details.

TRUST

More people trust Fleetwood. After all, we've spent over 50 years perfecting RVs, earning the loyalty of generations of RVers.

TO OUR CUSTOMERS...

To make sure that you get the maximum satisfaction out of your recreational vehicle purchase, there are several things you should know:

1. Learn all you can about the travel trailer or fifth wheel you're planning to buy. Don't rely on word of mouth. Get the facts about the actual trailer length, width, unloaded weight with options, Gross Vehicle Weight Rating, and cargo carrying capacity. These are usually available in the manufacturer's sales literature or from the Cargo Carrying Capacity Label located in each trailer. Be sure to check this information **before** you decide which unit to buy.

2. Verify the towing capacity of your tow vehicle. If you don't know, or aren't sure, you can ask at your automotive dealership. Be sure to match its tow rating to the loaded (not dry) weight of your trailer. Include the weight of water, additional accessories, clothing, food, and gear. To help Fleetwood travel trailer customers estimate this total weight, our Gross Vehicle Weight Ratings reflect the maximum weight of the trailer when fully loaded for camping. Be sure the weight of the tow vehicle plus the weight of your trailer do not exceed the Gross Combined Weight Rating of the tow vehicle.

Taking these simple steps before you buy will help ensure that your trailer and tow vehicle combination is just what you wanted.

See you on the trail!
