

AN ALL AMERICAN
DREAM

from American Coach

The American Dream
2001 Season

Knute Rockne on winning.

*“It (football) should be a game for the smart,
the swift, the brave and the clever.”*

When you become an American Coach owner, you also become a member of the American Coach team. A winning combination of sales, manufacturing and service professionals who take a great deal of pride in every coach we build.

American Coach embodies the very essence of what it takes to always emerge a winner. Hard work. Winning attitudes. And an unrelenting passion for being the best at what we do.

Many of the same values embraced by legendary coaches such as Knute Rockne. A coach who constantly raised the bar and brought out the best in all his players and those around him.

American Coach works to instill pride of ownership and a sense of belonging. And nowhere is that more evident than at American Coach Team Rallies... where hundreds of owners travel hundreds of miles to savor the moment and taste the victory.

WELCOME TO THE TEAM. WELCOME TO AMERICAN COACH.

Note #1: GVWR (Gross Vehicle Weight Rating): Means the maximum permissible loaded weight of the motor home. The GVWR is equal to or greater than the sum of the unloaded vehicle weight plus the net carrying capacity.

Note #2: GAWR (Gross Axle Weight Rating): Means the maximum permissible loaded weight a specific axle is designed to carry.

Note #3: UVW (Unloaded Vehicle Weight): Means the weight of a motor home as manufactured at the factory with full fuel, engine oil and coolants. The above UVW's represent a motor home with typical options. UVW will vary significantly based on option selection.

Note #4: GCWR (Gross Combined Weight Rating): Means the value specified by the motor home manufacturer as the maximum allowable loaded weight of this motor home with its towed vehicle. Towing and braking capacities may differ. Refer to Fleetwood and chassis manufacturer manuals for complete information.

Note #5: Length taken from front bumper to rear bumper.

Note #6: Excludes safety equipment and awnings.

Note #7: Tank Manufacturer's listed water capacity (WC). Actual LPG capacity is 80% of water listing as required by the safety code.
