

Kamparoo

Vacationer

THE KAMPAROO CAMPER...

- * Galvanized steel body
- * Open Length - up to 14'6" and weighs 700 lbs
- * Meets Transport Canada Highway Safety Standards (CMVSS) and the United States National Highway Traffic Safety Act (NHTSA, FMVSS)
- * Can haul a load
- * Store it upright to save space
- * Easy to tow for very small cars
- * Optional add on rooms and awning available ... and more!

KAMPAROO CAMPERS ARE ULTRA-LIGHT AND ERECT IN ONLY 10 SECONDS TO A SPACIOUS LIVING AND SLEEPING AREA ABOVE THE GROUND.

Overall the KAMPAROO offers a unique advantage because of it's versatility and construction. This camper performs well under heavy use conditions and behaves well at higher speeds behind smaller cars and SUV's where towing capacity is limited. The standard weight is 700 lbs. not including the optional kitchen and water tank.

Kamparoo

Trans-Continental

KampaRoo only uses Heavy Duty canvas specially formulated for extreme sun and rain.

This product has proven the test of time. Evident by the manufacturers 30 year history of building quality fold-over campers.

Comfortably accommodates 2 adults with a Double or a Queen Mattress. An air mattress or a cot can be utilized in the living space for an additional sleeping area.

Hot-dipped Galvanized chassis (Eliminates Rust).

EZE Wind up crank system for fingertip ease of opening the body. Gas Struts assist in opening and the crank lowers it smoothly.

The roof is built of a one piece checkerplate aluminum and supports a functional roof rack for additional cargo up to 400 lbs., or bicycles or a boat.

A ROOMY LIVING SPACE FOR ALL YOUR WEEKEND GETAWAYS.

THE KAMPAROO VACATIONER

The KampaRoo Vacationer has a 60" x 84" bed and can accommodate fold out cots in the living area. The Vacationer will sleep 2 (or more) people very comfortably.

There is a large storage area under the bed that is accessible from the inside.

The awning is optional on the Vacationer and an add-on room is available for additional space as needed.

THE KAMPAROO CAMPER FEATURES...

- The KampaRoo Campers are ultra light and comply with Transport Canada Safety Standards (CMVSS) and the United States National Highway Traffic Safety Act (NHTSA, FMVSS), allowing them to be towable by very small cars.
- The time required to erect the KampaRoo into a spacious living and sleeping area above the ground is 10 seconds. No poles, ropes, or pegs are required.
- KampaRoo only uses Heavy Duty canvas specially formulated for extreme sun and rain.
- This product has proven the test of time. Evident by the manufacturer's 30 year history of building quality fold-over campers.
- The Optional Slide-Out Stainless-steel Kitchen, effortlessly slides out and gives you Counter, Sink, and Cooking space. Includes a 2 Drawer cabinet for storage of stove and supplies.
- Strong enough to park a quad on top! (We do not recommend hauling ATV's)
- The roof is built of a one piece checkerplate aluminium and supports a functional roof rack for additional cargo up to 400 lbs., or bicycles or a boat.
- When folded for towing there is a standard 41" x 32" x 10" deep storage well that is counter sunk into the floor under the mattress as well as ample storage space above the mattress. The floor and interior sidewalls are a single piece of vacuum formed plastic similar to that of a pickup truck box liner.
- Comfortably accommodates 2 adults with a Double or a Queen Mattress. An air mattress or a cot can be utilized in the living space for an additional sleeping area.
- The Optional Awning extends forward to include covering the Optional Kitchen.
- Hot-dipped Galvanized chassis (Eliminates Rust).
- EZE Wind up crank system for fingertip ease of opening the body. Gas Struts assist in opening and the crank lowers it smoothly.
- The front and rear windows have an inside zip open clear plastic window over a mesh screen for all conditions.
- Ground skirt for use with Add-A-Room to close off drafts and bugs.
- Stores away in a small area
- Overall the KAMPAROO offers a unique advantage because of it's versatility and construction. This camper performs well under heavy use conditions and behaves well at higher speeds behind smaller cars and SUV's where towing capacity is limited. The standard weight is 700 lbs. not including the optional kitchen and water tank.
