

Go ahead. Check out our competitors. Escaper™ is the better value. We're sure of it. Other diesel motorhomes in its class cost \$60,000 to \$100,000 more. But Escaper matches, in some cases surpasses, their luxury. And beauty. We dare you to find a single one of them with all these extraordinary Escaper features:

motorhome with features like this at Escaper's price ...

Sculpted living room carpet not only enhances the overall beauty of the interior, but also is remarkably easy to keep clean.

Our cabinet door construction is second to none. Mortise and tenon joints, an oven-baked performance catalyst finish and solid wood are just some of the features that make our cabinets the most reliable in the industry.

Hidden hinges eliminate visible holes in the wood and increase the overall beauty of the interior. Even if you need to adjust the doors after many years of use, the doors will still look as good as new.

Escaper's interior is decorated with elegant Flexsteel* furniture and Corian* countertops. Scratches can be buffed right out of the countertops, allowing the surface to retain its beauty year after year.

Standard ceramic tile in the kitchen and bath adds an elegant appeal. And unlike the competition, Escaper's tile resists cracking because it is adhered to cement board, not the plywood subfloor.

Pullout pantry drawers

Ultra-leather buddy seat w/integrated 3-point seat belt

Electric entry step cover

Organizer rack

You also have the option of a Surroundsound* **home theater system**, complete with a DVD/CD player, five full-range satellite speakers, an amplified subwoofer and a Pioneer* receiver.

Keyless entry lets you lock and unlock Escaper's cab doors just as you do your car doors. A "panic" button sets off the motorhome's exterior lights and air horns.

Our **electric entry step cover** is much better than an air step. It extends, then adjusts flush with the living room floor. Plus, it has a safety switch.

Stretch out in Escaper's **passenger buddy seat**. It's one and a half times a normal-sized seat, so there's plenty of room to get comfortable. The 6-way power adjustment lets you fine-tune the seat for even greater comfort.

Available with a **2500-watt inverter**, rather than the typical 1500-watt inverter, Escaper lets you run more appliances while camping, without having to run the generator.

the price. Damon wins every time. Period.

Solid-wood cabinet doors

Interior storage space

Pass-through basement storage

If you're one of the 75% of motorhomers who tow a vehicle, you'll be happy to know that Escaper comes standard with a **10,000-lb. hitch**. Use it to tow a car, a pickup, even an SUV — Escaper is built to handle it.

Option the **Pioneer* XM-satellite radio tuner**, and you not only expand your choice of stations, but you also get coast-to-coast programming — with no need to switch stations as you travel.

Every 2003 Escaper is built with a **full fiberglass shell**. All sidewalls and roofs are made of seamless fiberglass, making them easy to clean and virtually maintenance-free.

When ordered with the optional **Sherwin Williams*** **full-body paint package**, your Escaper will definitely turn heads. Matching awnings accent the high-end design to create a truly beautiful motorhome.

affordable? Look no further than Escaper.

For a Damon Dare checklist for easy comparison shopping, visit our web site at www.DamonRV.com. We're confident that these features put Escaper in a class of its own. So go ahead, shop around. Once you see everything that goes into an Escaper, we're confident you wouldn't dare settle for anything less.

Pioneer® XM-satellite radio tuner

Surroundsound® home theater

Keyless entry

The Roof

Escaper's standard one-piece fiberglass roof is seamless, which means that it will remain virtually maintenance-free as long as you own your motorhome.

It features an aluminum rafter support system with bowed rafters to maintain the roof's crowned shape. A crowned roof permits better water runoff, which helps prevent leaks. It also increases the insulation factor, especially around air-conditioner channels.

Dare to go anywhere: Escaper's built to take it.

What makes the difference? Advanced engineering. Computer-aided design. Innovative manufacturing techniques. And paying attention to feedback from RVers just like you.

At Damon, we also maintain consistent standards. Many other manufacturers cut corners. Not us. Every motorhome we make, whatever the price, gets built the same way — the right way — with the same high-quality materials, components and construction techniques.

Leveling jacks

The Chassis

Quality construction starts with the chassis. And Escaper uses only the finest. Choose either a Freightliner® raised-rail chassis with a 330-hp Caterpillar® engine or a Spartan® raised-rail chassis with a 350-hp Cummins® engine. Either way, you'll have the power you need wherever your adventures take you.

Daring choices ... to fit your life.

Décor

Damon's interior designers and engineers have created a choice of exciting environments that not only help you feel right at home, but also lend a sense of personality to your Escaper.

Floor Plans

Whichever Escaper floor plan you choose, you can be sure it's thoughtfully laid out to provide the roomiest, most comfortable, most convenient mobile living experience you've ever had.

Paint

Gorgeous automotive full-body exterior paint in a choice of colors gives Escaper a distinctly upscale look. It's a new option for 2003 that's already turning heads and attracting a lot of buzz.
