## Pioneer Compac 4.0m x 2.1m (13' x 7')

PE401 (Pioneer)

PE402 (Pioneer)

### Pioneer Compac - Additional Pioneer Features

- Independent suspension 50mm axle, Parallel bearing set
- Chassis – Main bearers, A-frame & front cross members all 150mm x 50mm x 3mm RHS
- Tyres – LT 265/75 R16 – 6 ply radials
- Heavy duty rims
- Extra internal furniture fixing such as additional bolting, screwing & reinforcing blocks
- Positive locking cupboard door catches - self closing hinges & extra hinges to most cupboard doors
- Alko off road electric brake magnets
- Treg coupling 360 degree rotational hitch
- Battery compartment – slide out
- Increased ground clearance
- Lower body aluminium protector panel

The Pioneer range is designed to travel on and off sealed roads. They are not however designed to travel over all terrain. Travelling over rough, rocky, jagged, pinnacled or pot holed surfaces may amount to misuse or driver neglect. Any damage occurring as a result is excluded from the manufacturer's warranty. Commonsense should prevail in those conditions.
